**As at 10 November 2022, funds held in the Cash Superannuation Fund, and Retirement and Emergency Fund were consolidated with the equivalent investment fund held in the Cash and Income Superannuation Fund. Future investment returns are identical for all three products. However, as there were investment fee differences prior to that date, the investment return history shown in this report is only applicable to the Cash and Income Superannuation Fund. Historic returns for the Cash Superannuation Fund and Retirement and Emergency Fund were lower (due to higher investment management fees) and are available on request.*

Historic Metropolitan Life Returns

The Metropolitan Life funds shown below were discontinued in March 2026 when policies were migrated to funds with the same asset allocations and different names - see page 1. As the migration occurred progressively during the month of March it is not possible to provide accurate monthly returns for March 2026. Monthly returns will be correct from April 2026 but as the funds below and the go forward funds have different funds under managment fees historic performance will be different. For historic investor returns please see performance below to the last full month that these funds existed. March 2026 returns for a particular policy can be calculated and provided on request if required. The Foundation Fund migrated to the Conservative Growth Fund, the Balanced Fund to the Balanced Growth Fund, the Market Fund to the High Growth Fund, the Dynamic Fund to the Maximum Growth Fund, the Income Fund to the NZ Income Fund, Property to NZ Property, NZ Equity to NZ Equities and Global Emerging Markets to International Special Opportunities.

28 February 2026	1 Month %	3 Month %	6 Month %	1 Year %	3 Year %	5 Year %	10 Year %

**On 8 December 2008, the New Zealand Mortgage Fund was re-named the Income Fund and its asset allocation was changed from investment in a range of New Zealand residential mortgages to investment in deposits with registered New Zealand banks which may include a combination of fixed interest securities and cash. On 10 November 2022 the International and Global Small Companies Funds were closed to investors and as at 1 January 2023 held no funds.*

Past performance is not a reliable indicator of future performance. Returns can be negative as well as positive and are not guaranteed. The value of an investment, and any income from it, can go down as well as up and investors may get back less than they invested. This document is for general information only and does not take into account your personal financial situation or goals.
