Investments in the Products are subject to investment risk, including the loss of income and principal invested. Returns are net of tax and fund management fees that are deducted as a percentage of funds under management. They do not reflect entry, exit or other fees that are charged at an individual policy, scheme or product level. Please refer to your policy document for further information. The returns assume a lump sum invested at the beginning of the period, the reinvestment of all distributions/interest and that no withdrawals or additional investments have occurred. Returns for periods greater than one year are annualised. Negative returns are shown in brackets. Past investment performance cannot be seen as an indication of future performance as returns fluctuate according to market conditions. For more information on fees and other product information, please contact AIA.

AIA Services New Zealand Limited does not guarantee the accuracy or completeness of the information in this report. AIA, its directors or employees are not responsible and shall not be directly or indirectly liable for any loss or damage arising directly or indirectly out of the use of or reliance on the information in this report. It is strongly recommended that you obtain professional advice before making any investment decision. The list of funds for each product may not be complete.
