

TRAUMA INSURANCE

What is trauma insurance and why do you need it?

Trauma insurance is designed to pay you a lump sum to manage the financial impact if you or one of your children were to face serious illness or injury, like taking care of medical treatment and rehabilitation costs, or simply allowing you and your family to focus on recovery instead of worrying about work.

Unfortunately, experiencing a trauma such as serious illness or injury at least once in your life is more common than you might think. New Zealanders are increasingly surviving illnesses that previously have been terminal.

Key benefits of our trauma insurance

- Covers you for a range of defined medical conditions.
- Includes some built-in trauma and optional benefits to cover children under your trauma policy or a comprehensive standalone policy to support your family should your child face a serious illness or injury.
- Whether you are at home, travelling or living overseas for any period, you remain insured with worldwide cover.

Our trauma insurance options

AIA offers two types of trauma insurance, Critical Conditions and Progressive Care.

AIA Living Critical Conditions

Critical Conditions covers a list of defined medical conditions for a full or partial payment. The cover comes to an end on full payment.

AIA Living Progressive Care

Progressive Care is our affordable trauma cover. It can provide multiple payments linked to the severity of the illness or injury, with more severe conditions receiving a larger payment. You'll be covered for defined medical conditions across five categories: Cancer, Heart and Arteries, Brain and Nerves, Loss of Function, and Other Health Events. Even if you receive a full payment in one category, you could still be eligible to claim under other categories.

It can be beneficial to have both types of trauma insurance to make sure you're supported when and where it's needed most. Progressive Care can provide financial support for less severe claims, and both types of trauma insurance can be used when you face something big, providing financial support for a range of situations.

AIA Vitality

AIA Vitality is our personalised, science-backed health and wellbeing programme that supports you every day to make healthier lifestyle choices. It takes you on a journey to better health - where you get to know your health, improve it, and enjoy the rewards for doing so.

Add AIA Vitality when you purchase trauma insurance to receive:

- an initial 10% premium discount* on your first year's premium
- earn up to \$560 in vouchers or Airpoints Dollars™ per membership year
- exclusive rewards and discounts from our partners

Add AIA Vitality to your trauma insurance for \$11.50 per month.

*T&Cs apply.

How multiple conditions are covered under Progressive Care

When your policy begins, the amount of cover in each of the five categories is the same. As you claim for a condition, the amount reduces only for that category.

The strength of Progressive Care means after you make an initial claim (First Claim), you could then make future claims if your condition becomes worse or you suffer from a more severe related condition (Related Claim), or if you suffer from an unrelated condition (Unrelated Claim).

First claim

If a claim is paid under a specific category, the insurance remaining within that category decreases by the claim payment amount. If you receive a 100% claim payment, the insurance for that particular category is exhausted. However, the amount of cover for all other categories remains unaffected.

For example, if you are diagnosed with malignant melanoma that meets the criteria for Severity Level 4, you'll receive a payment of 25% under the Cancer Category and the sum assured for that category will reduce by the amount paid. The sum assured for other categories continues at 100%.

Related claims

If your medical condition worsens or you suffer from a related medical condition, you could claim again. The severity level must be higher than the preceding related claim. In these cases, the claim payment is based on increase in the severity*.

For example, if your condition worsens and the melanoma progresses to metastatic skin cancer that meets the criteria for Severity Level 1, it will be treated as a related claim and you'll receive a 75% claim payment being the balance remaining under the Cancer Category.

*Subject to cover being available within the category.

Unrelated claims

When you suffer a medical condition unrelated to previous claims.

For example, a year later you suffer a stroke that meets the criteria for Severity Level 4. As the stroke is unrelated to cancer, you could claim again and receive a 25% claim payment under the Brain and Nerves Category.

How Progressive Care and Critical Conditions work together to offer increased financial support.

Tom's claim journey

Tom has \$200,000 of trauma insurance made up of \$100,000 Progressive Care and \$100,000 Critical Conditions

First claim

Tom suffers a severity level 3 heart attack. He's eligible for a 50% claim payment under his Progressive Care and full claim payment from his Critical Conditions.

His total claim is \$150,000.

Unrelated claim

Unfortunately, 5 years later Tom suffers from cancer at severity level 1. He receives a 100% claim payment from Progressive Care and full claim payment from Critical Conditions. His total claim is \$200,000.

His total claim is \$200,000

While Tom's Critical Conditions insurance wasn't reinstated, his remaining Progressive Care continues to cover him across the remaining categories.

How you can save on insurance with AIA Vitality

When you sign up to AIA Vitality you receive an initial 10% premium discount on your eligible insurance policies. Then you're in control of the discount you can receive through ongoing engagement with the AIA Vitality programme. After the initial discount period (first year of membership), your AIA Vitality Discount will be determined annually based on your current AIA Vitality Status level on your policy anniversary.
