Critical Conditions Benefit

This appendix only applies if cover under the schedule for your policy includes the Critical Conditions Benefit. This appendix forms part of and is incorporated into your AIA Living policy, the terms of which apply to this appendix.

This Critical Conditions Benefit may be standalone or accelerated. Details of the benefit and the life/lives assured are shown in the schedule.

1. When will AIA pay a Critical Conditions Benefit?

AIA will pay you a Critical Conditions Benefit if the life assured suffers for the first time after the risk commencement date any of the conditions listed in the table below and survives for at least 14 days thereafter. An exception is the Optional Total Permanent Disablement condition, for which a three month survival period applies.

What stand down periods apply?

If, within the first three months after the risk commencement date, any of the conditions marked in the table below as having a three month stand down period occur, or symptoms or signs which lead to any of those conditions (whether or not a registered medical practitioner has been consulted) occur, then AIA will not pay a benefit for the life assured or any child of the life assured covered by the Built-in Children’s Trauma Benefit or the Optional Children’s and Maternity Benefit.

Cover added under the Critical Conditions Future Insurability Benefit or the Special Events Increase Facility

A six month stand down period applies to increases made under the Built-in Critical Conditions Future Insurability Benefit or the Built-in Special Events Increase Facility, except where the claim is due to an accident, as outlined in Sections 9 and 10. Where the claim is due to an accident, the three month stand down period is waived on such increases, provided the life assured has already served the three month stand down period on the original Critical Conditions Benefit policy.

Cover added under the Special Events TPD/Trauma Facility

A six month stand down period applies to any accelerated Critical Conditions Benefit cover added for the life assured using the Special Events TPD/Trauma Facility under the Life Cover Benefit, except where the claim is due to an accident, as outlined in the Life Cover Benefit appendix. Where the claim is due to an accident, the three month stand down period applies to the added cover from the date the added cover commences, for any of the conditions marked in the table below as having a three month stand down period.

Built-in Newborn Children’s Benefit

A 12 month stand down period applies to the Built-in Newborn Children’s Benefit, meaning that AIA will only pay a claim for a child of a life assured, where the life assured is the biological parent, if birth of the child with one of the applicable conditions occurs at least 12 months after the risk commencement date.

This 12 month stand down period applies anew to all added cover from the date the added cover commences, including cover added using the Critical Conditions Future Insurability Benefit, the Special Events Increase Facility, or the Special Events TPD/Trauma Facility under the Life Cover Benefit.

Medical Advancements Provision

If the medical diagnostic techniques and investigations used in our definitions of medical conditions have been superseded due to medical advancements, we will consider other appropriate and medically recognised methods or tests that conclusively diagnose the condition to at least the same severity.

The following requirements must be met for a claim to be considered:

> The new diagnostic techniques and investigations are not experimental and are medically necessary and medically equivalent or superior to the original diagnostic technique or investigation.

> Any new diagnostic techniques and investigations must be deemed medically acceptable based on medical standards and medically recognised in Australia or New Zealand by specialist medical practitioners.

</tbody>
</table>

(Refer to Section 22 for a full description of these conditions.)

If you receive a full payment claim for a life assured under this Critical Conditions Benefit, cover will cease for that life assured.

If you receive a partial payment of this Critical Conditions Benefit for a life assured, cover will continue for that life assured with the sum assured being reduced by the amount of the partial payment amount. The premium will reduce with the reduction in sum assured.

If the life assured suffers more than one condition (including the Optional Total Permanent Disablement condition), AIA will pay a maximum of the Critical Conditions Benefit sum assured for all claims (in total).
2. What effect does payment of an accelerated Critical Conditions Benefit have on the Life Cover Benefit?

This section applies only if an accelerated Critical Conditions Benefit is shown in the schedule.

When AIA pays an accelerated Critical Conditions Benefit, the Life Cover Benefit for the life assured will decrease by the same amount. Any other accelerated benefits relating to that Life Cover Benefit will also be reduced, if necessary, so that those accelerated benefits do not exceed the decreased Life Cover Benefit. If the Life Cover Benefit is reduced to nil, all accelerated benefits relating to that Life Cover Benefit will be removed.

The maximum combined amount payable under the Life Cover Benefit, Specified Terminal Conditions Benefit, Terminal Illness Benefit, Bereavement Support Benefit, Repatriation Benefit, accelerated Critical Conditions Benefit and, if applicable, the accelerated Progressive Care Benefit and the accelerated Total Permanent Disablement Benefit is the amount of the Life Cover Benefit for that life assured.

3. Built-in Financial and Legal Advice Benefit

If AIA pays a full payment claim under this Critical Conditions Benefit for a condition suffered by a life assured, then AIA will reimburse you for fees up to $2,500 including GST (in total) that you pay for financial planning you receive from an accredited Adviser or legal advice received from a legal professional approved by AIA, subject to the following conditions:

> You must pay for the financial planning or legal advice within the three months following AIA paying the Critical Conditions Benefit claim.
> You must provide AIA with a completed claim form and a receipt satisfactory to AIA for the fees you are claiming.
> AIA will only pay one Financial and Legal Advice Benefit per life assured across all AIA policies. This is in addition to the sum assured.

The Built-in Financial and Legal Advice Benefit is not payable for a claim for a child of the life assured under the Built-in Children’s Trauma Benefit, the Built-in Parents Grieving Benefit, the Optional Children’s and Maternity Benefit or the Built-in Newborn Children’s Benefit.

4. Built-in Children’s Trauma Benefit

What is the Built-in Children’s Trauma Benefit?

AIA will pay a Built-in Children’s Trauma Benefit if a child of a life assured suffers one of the applicable conditions listed in Section 1 of this appendix.

This Benefit is only payable if the child of the life assured:

> first suffers a condition after the risk commencement date, subject to the applicable stand down period provisions where these apply;
> is aged between two years and 21 years at the time he or she first suffers from that condition; and
> survives for at least 14 days after suffering from the condition.

What are the applicable conditions and how much will AIA pay?

For those conditions where the criteria for a full payment are met as detailed in Section 22 below, the Benefit payable is the lower of $50,000 or 50% of the sum assured across all Critical Conditions Benefit policies for the life assured.

No payments are made under this Benefit for the Optional Total Permanent Disablement condition or any of those conditions where a partial payment applies, except for the following conditions:

> Angioplasty – less than 3 vessels;
> Carcinoma-in-situ.

For these conditions, the Benefit payable is the lower of $50,000 or 10% of the sum assured across all Critical Conditions Benefit policies for the life assured.

AIA will pay a maximum of one claim per child under either the Built-in Children’s Trauma Benefit or the Built-in Newborn Children’s Benefit, across all AIA policies.

The Built-in Children’s Trauma Benefit or the Built-in Newborn Children’s Benefit is payable in addition to the Optional Children’s and Maternity Benefit (if applicable).

Payment of the Built-in Children’s Trauma Benefit will not affect the amount of any Critical Conditions Benefit payable for the life assured.

AIA will not pay a benefit under the Built-in Children’s Trauma Benefit that arises as a direct or indirect consequence of:

> a pre-existing condition; or
> any congenital condition.

5. Built-in Newborn Children’s Benefit

What is the Built-in Newborn Children’s Benefit?

AIA will pay a Built-in Newborn Children’s Benefit if a child of a life assured, where the life assured is the biological parent, is born with one of the following conditions and survives for thirty days after birth:

> Cleft palate.
> Down’s syndrome.
> Spina bifida.
> Total blindness.
Absence of two or more limbs.

Please refer to Section 23 for the definitions of these conditions.

In order for AIA to pay a claim under this Benefit, we will require medical information from a registered medical practitioner acceptable to us that conclusively evidences the condition. In circumstances where a conclusive diagnosis cannot be made at birth, we will defer our assessment of the claim until sufficient evidence can be supplied. For example, this might apply in the case of total blindness, where a conclusive diagnosis may not be possible until later in the child’s life. In these cases, the claims assessment will be based on the child’s sight at the date that conclusive diagnosis is first possible.

A claim is only payable under the Built-in Newborn Children’s Benefit if cover remains in effect for the life assured up to the date that the conclusive diagnosis for the child occurs.

How much will AIA pay?

The Benefit payable is the lower of $50,000 or 50% of the sum assured across all Critical Conditions Benefit policies for the life assured.

AIA will pay a maximum of one claim per child under either the Built-in Newborn Children’s Benefit or the Built-in Children’s Trauma Benefit, across all AIA policies.

The Built-in Newborn Children’s Benefit is only payable where the birth of the child with one of the applicable conditions occurs at least 12 months after the risk commencement date.

This requirement applies anew to all added cover from the date the cover commences; including cover added using the Built-in Critical Conditions Future Insurability Benefit, the Special Events Increase Facility, or the Special Events TPD/Trauma Facility under the Life Cover Benefit.

The Built-in Children’s Trauma Benefit or the Built-in Newborn Children’s Benefit is payable in addition to the Optional Children’s and Maternity Benefit (if applicable).

Payment of the Built-in Newborn Children’s Benefit will not affect the amount of any Critical Conditions Benefit payable for the life assured.

6. Built-in Children’s Trauma Conversion Facility

The Built-in Children’s Trauma Benefit can be converted to a standalone Critical Conditions Benefit with a maximum sum assured of $50,000 or 50% of the life assured’s original sum assured whichever is the lesser. Where the life assured’s sum assured has reduced the conversion will be calculated on the reduced amount, without further medical evidence.

If the Optional Children’s and Maternity Benefit is shown on the schedule, it can also be converted to a standalone Critical Conditions Benefit with a maximum sum assured of $75,000 without further medical evidence.

The following conditions are applicable to both Children’s Trauma Conversion options:

- A conversion cannot occur if the child has claimed or was eligible to claim under the Built-in Children’s Trauma Benefit and/or Optional Children’s and Maternity Benefit; and
- Your request for conversion must be received by AIA within 60 days of the anniversary date after the child’s 21st birthday; and
- Your request must be received in writing.

An applicable premium will be payable on converted cover.

7. Built-in Standalone Conversion Facility

If the schedule shows Critical Conditions Benefit as standalone you can convert this to accelerated Critical Conditions Benefit with an equal amount of Life Cover Benefit without any further medical evidence subject to the following:

- The life assured was accepted with standard underwriting terms (e.g. there are no special terms, exclusions or premium loadings applicable to the life assured); and
- The life assured is only eligible for the Standalone Conversion Facility where the conversion occurs before age 60;
- The life assured has not made a claim, with AIA or any other insurer, and is not eligible to make a claim under their standalone Critical Conditions Benefit. This includes any claim currently under assessment;
- The premiums for their standalone Critical Conditions Benefit are paid up to date;
- The accelerated Critical Conditions Benefit sum assured must be less than or equal to the standalone Critical Conditions sum assured; and
- The Life Benefit Cover sum assured does not exceed the accelerated Critical Conditions sum assured.

The premium for the conversion will be based on the age of the life assured and our premium rates at the date of conversion.

If you are issued a new policy for the amount of the standalone Critical Conditions Benefit being converted the new policy will be issued based on the information provided at the time of conversion, together with the information provided in the original proposal.

If the death of the life assured occurs within three months of the date of conversion, other than by accidental death, then this conversion is void and the standalone Critical Conditions Benefit will be reinstated from the date of conversion.
8. Built-in Premium Conversion Facility

You may at any time prior to the life assured reaching age 65:

> Convert all or part of your Critical Conditions Benefit from the premium type shown in the schedule to a Level premium structure; or
> Convert a Level premium structure to an alternate Level premium structure, of which term duration may be the same or less than current Level premium structure.

AIA will not require you or the life assured to produce further medical evidence at the time of conversion.

You will be issued a new policy for the sum assured amount of the Critical Conditions Benefit being converted, in which case:

> The Critical Conditions Benefit under this policy will be reduced by the sum assured amount converted;
> The new policy will be issued based on the information provided at the time of conversion, together with the information provided in the original proposal;
> The terms and conditions of the new policy will be those which are then offered by us to the general public;
> Premiums will be calculated on the current age of the life assured;
> Any special terms, exclusions or premium loadings that applied to your existing Critical Conditions Benefit under this policy will apply to your new Critical Conditions Benefit under the new policy.

9. Built-in Special Events Increase Facility

What is the Special Events Increase Facility?

On each occasion when one of the following circumstances occurs for a life assured on the Critical Conditions Benefit:

> having a child (by birth or legal adoption);
> becoming married or entering into a civil union;
> becoming divorced or the dissolution of the life assured's civil union;
> financially supporting a dependent child through a first course of full-time tertiary education;
> the commencement of secondary school for the first time by a child of the life assured;
> taking out or increasing a home loan because the life assured has purchased a new home, a new residential investment property, a vacation home, or a bare block of land zoned as residential, or is making extensions to a residential property or residential investment property owned by the life assured;
> becoming responsible for the full-time care or payment for long term care of a close relative;
> receiving an annual salary increase. This special event is not available to a life assured who is self-employed; or
> experiencing the death of a spouse, civil or de facto partner,

you may write to AIA asking us to increase the Critical Conditions Benefit for that life assured.

What is the maximum cover that can be added?

The maximum increase for each special event cannot exceed the lower of:

> 50% of the original Critical Conditions Benefit for the life assured; or
> $250,000.

The total of all increases made under this Facility cannot exceed the lower of:

> 100% of the original Critical Conditions Benefit for the life assured; or
> $750,000.

In the case of taking out or increasing a home loan, the individual increase cannot exceed the amount of the home loan or the increase in the home loan.

In the case of an annual salary increase, the individual increase cannot exceed five times the annual salary increase.

The maximum increases outlined above each apply in respect of all Critical Conditions Benefits, Progressive Care Benefits, and similar benefits for that life assured across all AIA policies.

Both of the following maximum sum assured limits also apply across all AIA policies for each life assured:

- the total of the sum assured for all Critical Conditions Benefits, Progressive Care Benefits, and similar trauma benefits (combined), including increases under this Facility must not exceed $2,000,000; and
- the total of the sum assured for all trauma benefits combined must not exceed $2,000,000 and the total sum assured for all trauma and Total Permanent Disablement Benefits (and similar benefits) combined must not exceed $5,000,000.

What are the other conditions applying to this Facility?

You do not need to produce any medical evidence regarding the life assured when you request this increase, but any Special Events Increase is subject to the following conditions:

> You must make the request within 60 days either side of the relevant special event and provide AIA with suitable evidence of the occurrence of the event.
> A life assured is only eligible for Special Events Increases where the special event occurs from the age of 16 and before age 55.
> If, at any time before you seek to exercise the Facility, a
claim for the life assured had been accepted by us or notified to us, AIA will have discretion in determining whether the Facility can be exercised. In exercising discretion, we will consider whether, based on the medical evidence submitted in support of the claim, the life assured represents an increased risk of claim for the benefit being added under this Facility.

> Only one of the following is available in any 12 month period:

- A Critical Conditions Future Insurability Benefit increase (see Section 10 below).
- A Special Events Increase under a Critical Conditions Benefit or Progressive Care Benefit.
- (If applicable) exercising the Special Events TPD/Trauma Facility under the Life Cover Benefit and/or similar benefits to add an accelerated Critical Conditions Benefit or an accelerated Progressive Care Benefit.

> The Optional Early Cancer Upgrade Benefit is not available for the purposes of determining Special Event Increases.

AIA will increase the Critical Conditions Benefit for a life assured from the date we accept your request.

Each increase will require an increase in premium. This increase will be calculated on the rates applicable at the time the Built-in Special Events Increase Facility is exercised.

Any loadings, exclusions or special terms on the original Critical Conditions Benefit sum assured will be applied to the increased amount.

When will AIA not pay a claim for an increase under this Facility?

a. Increases in sum assured added to this policy

After an increase under this Facility has been made, AIA will not pay the increased benefit amount if, before the increase, or within six months of the Facility being exercised, the life assured:

> suffers any condition for the first time other than due to an accident under the Critical Conditions Benefit; or
> has any symptoms or signs leading to a condition (whether or not a registered medical practitioner has been consulted) that may result in a claim for anything other than an accident under the Critical Conditions Benefit.

b. Increases in sum assured issued as an additional new policy

Where this policy or any part of the sum assured under it, has been issued as the result of an increase under the Built-in Special Events Increase Facility, then:

> the Special Events Increase Facility will not be available under this policy for the proportion of the sum assured that represents the increase;
> AIA will not pay the increased benefit amount if, before the increase, or within six months of the increase, the life assured:
> - suffers any condition for the first time other than due to an accident under the Critical Conditions Benefit; or
> - has any symptoms or signs leading to a condition (whether or not a registered medical practitioner has been consulted) that may result in a claim for anything other than an accident under the Critical Conditions Benefit.

At every third policy anniversary date you may write to AIA asking us to increase the Critical Conditions Benefit for a life assured.

You do not need to produce any medical evidence regarding the life assured when you request this increase, but any increase in sum assured under this Benefit is subject to the following conditions:

> You must request the increase by providing written advice to AIA within 60 days either side of the applicable anniversary date. Outside of this time frame, the Critical Conditions Future Insurability Benefit is not available.
> Each individual increase cannot exceed 20% of the original Critical Conditions Benefit sum assured or $200,000, whichever is the lesser.
> The total of all Critical Conditions Future Insurability Benefit increases for a life assured cannot exceed 100% of the original Critical Conditions Benefit for that life assured or $500,000, whichever is the lesser.
> Both of the following maximum sum assured limits also apply across all AIA policies for each life assured:

a. The total of the sum assured for all Critical Conditions Benefits, Progressive Care Benefits, and similar trauma benefits (combined), including increases under this Benefit must not exceed $2,000,000; and
b. The total of the sum assured for all trauma benefits combined must not exceed $2,000,000 and the total sum assured for all trauma and Total Permanent Disablement Benefits (and similar benefits) combined must not exceed $5,000,000.

> Where this Critical Conditions Benefit is shown in the schedule as accelerated against the Life Cover Benefit, the Critical Conditions Benefit, including the total of all Critical Conditions Future Insurability Benefit increases, cannot exceed the sum assured of the Life Cover Benefit. See Section 2 "What effect does payment of an accelerated Critical Conditions Benefit have on the Life..."
A life assured is only eligible for Critical Conditions Future Insurability Benefit increases from the age of 16, and before age 55.

AIA will increase the Critical Conditions Benefit for a life assured from the date we accept your request.

If, at any time before you seek to exercise an increase under this Benefit, a claim for the life assured had been accepted by us or notified to us, AIA will have discretion in determining whether the increase will be accepted. In exercising discretion, we will consider, based on the medical evidence submitted in support of the claim, whether the life assured represents an increased risk of claim for the cover being added under this Benefit.

Only one of the following is available in any 12 month period:

- A Built-in Critical Conditions Future Insurability Benefit increase;
- A Special Events Increase under a Critical Conditions Benefit or Progressive Care Benefit; or
- (If applicable) exercising the Special Events TPD/Trauma Facility under the Life Cover Benefit and/or similar benefits to add an accelerated Critical Conditions Benefit or an accelerated Progressive Care Benefit.

The Optional Early Cancer Upgrade Benefit is not available for the purposes of determining Built-in Critical Conditions Future Insurability Benefit increases.

Each Built-in Critical Conditions Future Insurability Benefit increase in sum assured will require an increase in premium. This increase will be calculated on the rates applicable at the time the Built-in Critical Conditions Future Insurability Benefit is exercised.

Any loadings, exclusions or special terms on the original Critical Conditions Benefit sum assured will be applied to the increased amount.

The Built-in Critical Conditions Future Insurability Benefit is not available for the Optional Early Cancer Upgrade Benefit or the Optional Children’s and Maternity Benefit.

When will AIA not pay a claim for an increase under this Benefit?

a. Increases in sum assured added to this policy

After a Built-in Critical Conditions Future Insurability Benefit increase has been made, AIA will not pay the increased amount if, before the increase, or within six months of the increase, the life assured:

- suffers any condition for the first time other than due to an accident under the Critical Conditions Benefit; or
- has any symptoms or signs leading to a condition (whether or not a registered medical practitioner has been consulted) that may result in a claim for anything other than an accident under the Critical Conditions Benefit.

b. Increases in sum assured issued as an additional new policy

Where this policy or any part of the sum assured under it, has been issued as the result of an increase under the Built-in Critical Conditions Future Insurability Benefit, then the Built-in Critical Conditions Future Insurability Benefit under this policy will not be available for the proportion of the sum assured that represents the increase.

AIA will not pay the increased amount if, before the increase, or within six months of the increase, the life assured:

- suffers any condition for the first time other than due to an accident under the Critical Conditions Benefit; or
- has any symptoms or signs leading to a condition (whether or not a registered medical practitioner has been consulted) that may result in a claim for anything other than an accident under the Critical Conditions Benefit.

11. Built-in Return Home Benefit

AIA will pay a Return Home Benefit if the life assured is outside of New Zealand and suffers, for the first time, a covered condition.

The Return Home Benefit will reimburse the cost of a standard economy flight back to New Zealand for the life assured and one support person.

You will need to provide evidence of the transport costs satisfactory to us before a claim under the Return Home Benefit will be paid.

In total the maximum we will pay over the life of the policy under the Return Home Benefit is $10,000. A Return Home Benefit is paid in addition to the Critical Conditions Benefit.

No payment will be made if the life assured is covered for the same event with a travel insurance provider.

12. Built-in Parents Grieving Benefit

When is a Parents Grieving Benefit payable?

AIA will pay a Parents Grieving Benefit if:

- a child of a life assured dies prior to birth but after at least 24 weeks gestation, where the life assured is the biological mother of the child; or
- a child of a life assured dies.

This Benefit is only payable if the child is born, or would have been born if the pregnancy continued to full term, at least 12 months after the risk commencement date.
This Parents Grieving Benefit ceases when the child reaches age 21.

**How much will AIA pay for the Parents Grieving Benefit?**

The benefit payable is:

- $2,000 if the child is under 10 years of age, or
- $15,000 if the child is 10 years of age or over.

Payment of the Parents Grieving Benefit will not reduce the sum assured of the Critical Conditions Benefit for the life assured.

AIA will pay a maximum of one claim per child under the Parents Grieving Benefit across all AIA policies for a life assured.

13. **Built-in Counselling Benefit**

The Counselling Benefit covers the cost of a Psychiatrist or Psychologist consultation and/or counselling for the life assured and/or a close relative of the life assured where the support treatments and/or consultations directly relate to a claim under the Critical Conditions Benefit. After referral by an appropriate specialist we will reimburse up to $2,500 including GST (in total) per life assured, subject to the following conditions:

- The consultation and/or counselling must be paid for within three months following AIA paying the Critical Conditions Benefit; and
- AIA must be provided with a receipt for the consultation and/or counselling being claimed.

The $2,500 is payable once per life assured per policy. This is in addition to the sum assured.

14. **Built-in Suspension of Premium Benefit**

If a life assured goes on parental leave, or goes on leave without pay for any reason, you may suspend cover under this Critical Conditions Benefit for the life assured provided that:

- you notify AIA within three months from the commencement of leave and provide evidence to AIA of the parental leave or leave without pay; and
- AIA acknowledges in writing receipt of that notification.

Cover for the life assured will be suspended from the date set out in AIA's written acknowledgment.

No premium will be payable during the period that the cover is suspended.

No claim under this Critical Conditions Benefit will be payable for any condition that occurs during, the period that the cover is suspended.

Cover under this Critical Conditions Benefit appendix may be reinstated after it has been suspended in accordance with this Section without the need to provide further medical evidence, provided that:

- the benefit has been suspended for no longer than 12 months from commencing the leave; and
- you notify AIA to reinstate this benefit.

If AIA does not receive notification to reinstate the suspended benefit before the end of the 12 months of suspension, the benefit will be automatically reinstated for that life assured.

Cover for the life assured will be reinstated from the date set out in AIA's written acknowledgement.

The premium payable for the reinstated benefit will be based on AIA's premium rates at the time of the reinstatement.

15. **Optional Early Cancer Upgrade Benefit**

The Early Cancer Upgrade Benefit is available as an option once the life assured reaches age 16. The schedule will specify if you have chosen the Optional Early Cancer Upgrade Benefit.

AIA will pay an Optional Early Cancer Upgrade Benefit (subject to the provisions of this policy) if the life assured suffers for the first time one of the cancer conditions listed below, after the date cover commences under the Optional Early Cancer Upgrade Benefit. The Optional Early Cancer Upgrade Benefit does not apply to children of the life assured covered under the Children's Trauma Benefit or the Optional Children's and Maternity Benefit.

Only one claim per life assured can be made under the Optional Early Cancer Upgrade Benefit. The Optional Early Cancer Upgrade Benefit will cease once a claim is paid and your premiums will reduce accordingly. If at claim time, the life assured does not have a base Critical Conditions Benefit, no Optional Early Cancer Upgrade Benefit will be payable and any premiums paid for the Optional Early Cancer Upgrade Benefit after the base Critical Conditions Benefit has been cancelled will be refunded to the policy owner.

The amount payable under the Optional Early Cancer Upgrade Benefit is 25% of the Critical Conditions Benefit sum assured at the date cover commences under the Optional Early Cancer Upgrade Benefit, subject to a maximum of $75,000 per life assured across all AIA policies. The amount payable under the Optional Early Cancer Upgrade Benefit does not change with any subsequent changes in the Critical Conditions Benefit sum assured, such as changes due to:

- annual indexation increases after the date cover commences under the Optional Early Cancer Upgrade
> cover added using the Special Events Increase Facility or the Special Events TPD/Trauma Facility;
> Critical Conditions Future Insurability Benefit increases; or
> reductions in the Critical Conditions Benefit sum assured due to voluntary reduction or due to a partial payment claim.

The Optional Early Cancer Upgrade Benefit will cease when cover under the Critical Conditions Benefit ceases.

Payment of the Optional Early Cancer Upgrade Benefit may be in addition to any other payments made under this policy. Payment of the Optional Early Cancer Upgrade Benefit will not reduce the Critical Conditions Benefit sum assured.

The Optional Early Cancer Upgrade Benefit covers carcinoma-in-situ of the following sites and is defined as a focal autonomous new growth of carcinomatous cells which has not yet resulted in the invasion of normal tissue. ‘Invasion’ means an infiltration and/or active destruction of normal tissue beyond the basement membrane. The carcinoma-in-situ must be positively diagnosed by biopsy and be classified as TIS according to the TNM staging method or FIGO Stage 0:
> Breast.
> Cervix.
> Vagina.
> Vulva.
> Ovary.
> Fallopian tube: tumour limited to tubal mucosa.

The Optional Early Cancer Upgrade Benefit also covers the following cancers:
> Chronic lymphocytic leukaemia: where there must be the presence of chronic lymphocytic leukaemia which is histologically described as at least RAI Stage 0.
> Malignant melanoma which is determined by histological examination to be less than Clark Level 3 depth of invasion, and less than 1.0mm maximum thickness as measured using the Breslow method, and shows no evidence of ulceration.
> Malignant tumour of the prostate histologically described as TNM classification T1 or has a Gleason score of 5 or less for which treatment is not considered medically necessary, and undertaken by an appropriate specialist to arrest the spread of malignancy including but not limited to prostatectomy, chemotherapy, radiotherapy, or surgery.

The Critical Conditions Buyback Benefit does not apply for the Optional Early Cancer Upgrade Benefit.

16. Optional Total Permanent Disablement condition

The Optional Total Permanent Disablement condition is available once the life assured reaches age 16. The schedule will specify if you have chosen the Optional Total Permanent Disablement condition and, subject to the provisions of this appendix, is included as a full payment condition under the Critical Conditions Benefit.

The Optional Total Permanent Disablement condition does not apply to any child of a life assured covered under the Children’s Trauma Benefit or the Optional Children’s and Maternity Benefit.

The Optional Total Permanent Disablement condition does not apply once the life assured attains age 65.

17. Optional Children’s and Maternity Benefit

The Children’s and Maternity Benefit is available as an option once the life assured reaches age 16. The schedule will specify if you have chosen the Optional Children’s and Maternity Benefit.

The Benefit is payable in addition to any Benefit payable under the Built-in Children’s Trauma Benefit or the Built-in Newborn Children’s Benefit.

a. Children’s Critical Conditions Benefit

What is the Children’s Critical Conditions Benefit?

AIA will pay a Children’s Critical Conditions Benefit if a child of a life assured suffers one of the applicable conditions listed in Section 1 of this appendix.

This Benefit is only payable if the child of the life assured:
> first suffers a condition after the risk commencement date, subject to the three month stand down period provisions where these apply;
> is aged between two years and 21 years at the time he or she first suffers from that condition; and
> survives for at least 14 days after suffering from the condition.

AIA will pay a maximum of one claim for a child under the Children’s Critical Conditions Benefit across all AIA policies for a life assured. In cases where two policies each name a distinct parent of the child as a life assured, both policies are eligible to claim under the Children’s Critical Conditions Benefit for that child, provided the Optional Children’s and Maternity Benefit is shown in the schedule of both policies.
What are the applicable conditions and how much will AIA pay?

For those conditions where the criteria for a full payment are met as detailed in Section 22 below the Benefit payable is the lower of $75,000 or 50% of the Critical Conditions Benefit sum assured.

No payments are made under this Benefit for the Optional Total Permanent Disablement condition or any of the conditions where a partial payment applies, except for the following conditions:

- Angioplasty – less than 3 vessels.
- Carcinoma-in-situ.

For these conditions, the Benefit payable is the lower of $75,000 or 10% of the Critical Conditions Benefit sum assured.

Before cover for a child can commence under the Children’s Critical Conditions Benefit, you must advise us in writing of the child’s name, date of birth and gender. Cover for a child will only commence once we have confirmation of the child’s details in writing.

b. Pregnancy Complications Benefit

When is a Pregnancy Complications benefit payable?

This Benefit is payable if a life assured for the Critical Conditions Benefit suffers for the first time and at least 12 months after the risk commencement date one of the defined pregnancy complication conditions.

AIA will not pay this benefit if the life assured suffers the condition or has any symptoms leading to the condition (whether or not a registered medical practitioner has been consulted) within 12 months after the risk commencement date.

What pregnancy complication conditions are covered?

- Disseminated intravascular coagulation.
- Eclampsia.
- Hydatidiform mole.

See Section 24 for a full description of these conditions.

How much will AIA pay for the Pregnancy Complications Benefit?

The Benefit payable is $10,000.

Payment of the Pregnancy Complications Benefit will not reduce the Critical Conditions Benefit.

AIA will not pay a benefit under the Optional Children’s and Maternity Benefit that arises as a direct or indirect consequence of:

- any congenital condition.

The Critical Conditions Buyback Benefit does not apply for the Optional Children’s and Maternity Benefit.

18. Optional Life Cover Buyback Benefit

The Life Cover Buyback Benefit is available as an option once the life assured reaches age 16. The schedule will specify if you have chosen the Optional Life Cover Buyback Benefit and if you have selected an accelerated Critical Conditions Benefit.

Where an Optional Life Cover Buyback Benefit is selected, this allows the Life Cover Benefit to be reinstated without the need to provide further medical evidence following an accelerated Critical Conditions Benefit claim, subject to the following conditions:

- The Life Cover Benefit can be reinstated to the level applying immediately before the accelerated Critical Conditions Benefit claim.
- The life assured must have had a claim paid on their accelerated Critical Conditions Benefit for one of the following conditions and have survived a period of six months after the claim payment date:
  - Paraplegia.
  - Quadriplegia.
  - Diplegia.
  - Hemiplegia.
  - Alzheimer’s disease.
  - Permanent blindness.
  - Permanent loss of hearing.
  - Dementia.
  - Permanent loss of use of limbs.
  - Multiple sclerosis.
  - Idiopathic Parkinson’s disease.
- For all other conditions (including the Optional Total Permanent Disablement condition, where applicable), the life assured must have had a claim paid on their accelerated Critical Conditions Benefit and have survived a period of 12 months after the claim payment date.
- The Life Cover Benefit can be reinstated following a full payment claim or a partial payment claim.
- Only one Life Cover Buyback reinstatement will apply per life assured per policy.
- The Life Cover Benefit must be reinstated within 30 days of the date that the Life Cover Benefit is first eligible to be reinstated.
> The maximum Life Cover Benefit that can be reinstated is 100% of the accelerated Critical Conditions Benefit claim or $2,000,000, whichever is the lesser.

> No Life Cover Buyback Benefit is available if the life assured has suffered a claim event under a Terminal Illness Benefit or a Specified Terminal Conditions Benefit under any AIA policy, whether or not a claim has been made.

> Any exercise of the Life Cover Buyback Benefit may require an increase in premium. This premium increase will be calculated on the rates applicable at the time the Life Cover Benefit is reinstated.

> Any accelerated benefits relating to the Life Cover Benefit for the life assured that have been reduced or removed as a result of an accelerated Critical Conditions Benefit claim will not be reinstated.

19. Optional Critical Conditions Buyback Benefit

The Critical Conditions Buyback Benefit is available as an option once the life assured reaches age 16. The schedule will specify if you have chosen the Optional Critical Conditions Buyback Benefit.

Where an Optional Critical Conditions Buyback Benefit is selected, this allows the Critical Conditions Benefit to be reinstated without the need to provide further medical evidence following a Critical Conditions Benefit claim, subject to the following conditions:

> The life assured must have had a claim paid on their Critical Conditions Benefit that has reduced the sum assured to a nil balance, and have survived a period of 12 months after the claim payment date.

> The Critical Conditions Benefit must be reinstated within 30 days of the first anniversary of the Critical Conditions Benefit claim payment.

> The maximum Critical Conditions Benefit that can be reinstated is 100% of the Critical Conditions Benefit claim payment or $2,000,000, whichever is the lesser.

> If you had selected the Optional Total Permanent Disablement condition at the time of the first Critical Conditions Benefit claim, this condition will be included under the reinstated Critical Conditions Benefit, except where the Optional Total Permanent Disablement condition was the subject of the Critical Conditions Benefit claim.

> Any premium loadings or exclusions which applied to the original Critical Conditions Benefit will also apply to the reinstated Critical Conditions Benefit.

> Any exercise of the Optional Critical Conditions Buyback Benefit may require an increase in premium. This premium increase will be calculated at the rates applicable at the time the Critical Conditions Benefit is reinstated. However, where the Critical Conditions Benefit has been reinstated after a full payment claim has been paid for cancer, stroke or heart attack – a discount will be applied to the premium.

> In the event of a claim in respect of the reinstated Critical Conditions Benefit, the following will be excluded from the life assured’s reinstated Critical Conditions Benefit cover:

- Any condition for which a Critical Conditions Benefit claim has been paid for the life assured;

- Any condition for the subsequent claim that is a related condition to the condition which was the subject of the first Critical Conditions Benefit claim, as determined by AIA. Refer to Section 25 for a schedule of related conditions.

> Only one Critical Conditions Benefit reinstatement will be allowed over the life of this policy for a life assured.

> Reinstatement of the Critical Conditions Benefit is not available following a claim for a condition listed in Section 1 which results in a partial payment.

> No Critical Conditions Buyback Benefit is available if the life assured has suffered a claim event under a Terminal Illness Benefit or a Specified Terminal Conditions Benefit under any AIA policy, whether or not a claim has been made.

> The Optional Critical Conditions Buyback Benefit is not available for the Optional Children’s and Maternity Benefit or the Optional Early Cancer Upgrade Benefit.

20. Exclusions – when AIA won’t pay a benefit

AIA will not pay any benefit described in this appendix where any of the following (and in each case either directly or indirectly) causes or contributes to the claim:

> The life assured (or the child in the case of a Built-in Children’s Trauma Benefit or the Optional Children’s and Maternity Benefit) deliberately injures himself or herself or attempts to do so.

> The life assured (or the child in the case of a Built-in Children’s Trauma Benefit or the Optional Children’s and Maternity Benefit) engages in or is part of any conduct that is criminal.

> Any condition or any symptom or signs leading to the condition (whether or not a registered medical practitioner has been consulted) that existed before the risk commencement date, unless AIA is satisfied that you or the life assured could not have known of the existence of the condition or symptom or signs leading to the condition, or the condition or symptom or signs leading to the condition were declared on your application and accepted by AIA.

AIA will not pay any benefit described in this appendix where any of the following occurs before a life assured (or any child

1105 AL-CC version 1 Effective 5 August 2019
in the case of a Built-in Children’s Trauma Benefit or the Optional Children’s and Maternity Benefit) reaches age 21, and (in each case either directly or indirectly) causes or contributes to a claim for that life assured (or child):

- any intentional act by you or by any parent or guardian of the life assured, or child.
- any intentional act by someone who lives with or supervises the life assured, or child.

AIA will not pay a benefit under the Built-in Children’s Trauma Benefit or the Optional Children’s and Maternity Benefit that arises as a direct or indirect consequence of:

- a pre-existing condition; or
- any congenital condition.

These exclusions apply to any subsequent benefit increase you make.

### 21. How to make a claim

To make a claim, refer to the section in your AIA Living policy entitled ‘How to make a claim’.

In addition, for a Critical Conditions Benefit claim, AIA will require information acceptable to us, including medical evidence and reports, showing proof of the condition giving rise to the claim.

AIA may require the life assured or his or her child (if applicable) to have an examination by a registered medical practitioner appointed by AIA before accepting liability for a claim.

Where the Optional Total Permanent Disablement condition is the condition giving rise to the claim, AIA will also require:

- An AIA claims form completed by the life assured and a registered medical practitioner (at your expense).
- Other information which AIA may reasonably request to help assess the claim, which may include evidence of earnings, taxable income, business accounts, ACC details or similar.
- The life assured to undergo medical and/or surgical treatment (including any operation or vocational, medical and/or social rehabilitation) at your expense which the life assured’s registered medical practitioner, or a registered medical practitioner approved by AIA, considers necessary.
- Any other information that AIA may deem relevant to the assessment of the claim.

For advice about submitting a claim you can phone AIA on 0800 500 108 or your Adviser. Find claim information online at aia.co.nz

### 22. Definitions of medical conditions

For more information on the listed medical conditions, visit aia.co.nz

#### Cancer

The life assured has suffered or undergone one of the following conditions:

- **Carcinoma-in-situ**
  A focal autonomous new growth of carcinomatous cells which has not yet resulted in the invasion of normal tissues. ‘Invasion’ means an infiltration and/or active destruction of normal tissue beyond the basement membrane.

This benefit only covers carcinoma-in-situ of the following sites:

- Breast.
- Cervix.
- Vagina.
- Vulva.

The carcinoma-in-situ must be positively diagnosed by biopsy and be classified as TIS according to the TNM staging method or FIGO Stage 0.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

- **Carcinoma-in-situ radical surgery**
  
  As a result of a carcinoma-in-situ, an operation to arrest spread of the malignancy is performed which involves the removal of the entire organ (which includes: breast, cervix, ovary, fallopian tube, vagina, vulva, prostate, colon/rectal, bladder) affected, or the organ requires systemic chemotherapy or radiotherapy, and that treatment is considered medically necessary by an appropriate specialist.

The carcinoma-in-situ must be positively diagnosed by biopsy and be classified as TIS according to the TNM staging method or FIGO Stage 0.

- **Malignant tumours**
  The presence of one or more malignant tumours, characterised by uncontrolled growth and spread of malignant cells, with the invasion and destruction of normal tissue for which major interventionist treatment or surgery is considered medically necessary by an appropriate specialist.

The following tumours are excluded:

- Tumours classified as carcinoma-in-situ (including intra-epithelial neoplasia).
- Prostate tumours with a Gleason score of less than 6. (If the Gleason score is unavailable, we will use the TNM classification and tumours classified as T1 or its equivalent will be excluded).

For more information on the listed medical conditions, visit aia.co.nz

### Definitions of medical conditions

Cancer

The life assured has suffered or undergone one of the following conditions:

- **Carcinoma-in-situ**
  A focal autonomous new growth of carcinomatous cells which has not yet resulted in the invasion of normal tissues. ‘Invasion’ means an infiltration and/or active destruction of normal tissue beyond the basement membrane.

This benefit only covers carcinoma-in-situ of the following sites:

- Breast.
- Cervix.
- Vagina.
- Vulva.

The carcinoma-in-situ must be positively diagnosed by biopsy and be classified as TIS according to the TNM staging method or FIGO Stage 0.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

- **Carcinoma-in-situ radical surgery**
  
  As a result of a carcinoma-in-situ, an operation to arrest spread of the malignancy is performed which involves the removal of the entire organ (which includes: breast, cervix, ovary, fallopian tube, vagina, vulva, prostate, colon/rectal, bladder) affected, or the organ requires systemic chemotherapy or radiotherapy, and that treatment is considered medically necessary by an appropriate specialist.

The carcinoma-in-situ must be positively diagnosed by biopsy and be classified as TIS according to the TNM staging method or FIGO Stage 0.

- **Malignant tumours**
  The presence of one or more malignant tumours, characterised by uncontrolled growth and spread of malignant cells, with the invasion and destruction of normal tissue for which major interventionist treatment or surgery is considered medically necessary by an appropriate specialist.

The following tumours are excluded:

- Tumours classified as carcinoma-in-situ (including intra-epithelial neoplasia).
- Prostate tumours with a Gleason score of less than 6. (If the Gleason score is unavailable, we will use the TNM classification and tumours classified as T1 or its equivalent will be excluded).
All malignant melanomas unless they:
- are at least 1.0mm in maximum thickness as determined by histological examination using the Breslow thickness histological classification; or
- are graded higher than Clark level 2 depth of invasion; or
- show evidence of ulceration as determined by histological examination.

Skin cancers unless they have spread to other organs.

Chronic lymphocytic leukaemia less than RAI Stage 1.

Prostate Cancer
As a result of a prostate tumour, the entire prostate is removed to arrest spread of the malignancy and this is considered medically necessary by an appropriate specialist.

The benefit also covers malignant tumour of the prostate histologically described as T1 or Gleason score of 5 or less for which treatment is considered medically necessary, and undertaken by an appropriate specialist to arrest the spread of malignancy including but not limited to chemotherapy, radiotherapy, or surgery

Heart
The life assured has suffered or undergone one of the following conditions:

Angioplasty – less than 3 vessels
The actual undergoing of coronary artery angioplasty with or without a stent, laser or atherectomy, considered medically necessary by an appropriate specialist cardiologist, to correct a narrowing or blockage of one or two coronary arteries during the same procedure.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies per claim. For each life assured you can make more than one claim for this condition as long as at least six months has passed between each claim event; and the subsequent claim for this condition is not in respect of the same coronary artery or arteries as any previous claim for this condition.

Angioplasty – 3 vessels or more
The actual undergoing of coronary artery angioplasty to correct a narrowing or blockage of at least three coronary arteries within a period of 60 days that is considered medically necessary on the basis of angiographic evidence, indicating obstruction of at least three coronary arteries.

Repeat procedures to the same coronary artery are not covered.

Aortic surgery
Medically necessary surgery to correct or repair:
- an aortic aneurysm;
- an obstruction of the aorta;
- a coarctation of the aorta; or
- a traumatic rupture of the aorta.

For the purpose of this definition aorta shall mean the thoracic and abdominal aorta.

Cardiomyopathy
Impaired ventricular function of variable aetiology due to primary disease of the heart muscle, resulting in permanent and irreversible physical impairments to the degree of at least Class 3 of the New York Heart Association classification of cardiac impairment.

Coronary artery bypass surgery
Medically necessary surgery to correct the narrowing of, or blockage to, one or more coronary arteries by means of a bypass graft.

Heart attack
The death of a portion of the heart muscle (myocardium) as a result of inadequate blood supply to the relevant area, confirmed by a cardiologist or general physician and evidenced by:

Typical rise and/or fall of cardiac biomarkers with at least one value above the 99th percentile of the upper reference limit and at least one of the following:
- Signs and symptoms of ischaemia which are consistent with myocardial infarction; or
- Confirmatory new (or presumed new) ECG changes associated with myocardial infarction with the development of any one of the following:
  - ST changes;
  - T wave inversion;
  - Left bundle branch block (LBBB);
  - Pathological Q waves; or
- Imaging evidence of new loss of viable myocardium or new regional wall motion abnormality.

A rise in cardiac biomarkers resulting from a percutaneous procedure for coronary artery disease is excluded unless the baseline value is normal and the elevation is greater than 5 times the 99th percentile of the upper reference limit.

If the above evidence is inconclusive or superseded by technological advances, we will consider other appropriate and medically recognised tests that unequivocally diagnose that a myocardial infarction of the degree of severity or greater as outlined above has occurred.

Other acute coronary syndromes including but not limited to angina pectoris are excluded.
Heart valve surgery

Full payment
The undergoing of heart valve surgery performed to replace or repair one or more heart valves that cannot be repaired by intra-arterial procedures.

Partial payment
The undergoing of a heart valve replacement or repair. Heart Valve Replacement means the actual undergoing of thoracoscopic, laparoscopic, valvotomy, catheter or minimally invasive surgery to treat or repair a cardiac valve as a consequence of heart valve defects or abnormalities. Each surgery to treat or repair the cardiac valve must occur at least six months after the previous cardiac surgery. Investigative or diagnostic procedures are specifically excluded.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

Benign brain tumour

Full payment
A benign intracranial tumour that gives rise to characteristic symptoms of intracranial pressure such as papilledema, mental symptoms, seizures and sensory impairment which:

> results in neurological damage and functional impairment which an appropriate specialist deems to be permanent; or
> is deemed appropriate and medically necessary to be:
  - treated using major interventional treatment necessary for the therapeutic management of the tumour; or
  - removed through surgery (whether it is able to be removed or not).

Neurological damage and functional impairment include but are not limited to: memory loss, impaired speech, vision loss and paralysis on one side of the body.

The presence of the underlying tumour must be confirmed by imaging studies such as a CT or MRI scan.

Excluded are cysts, granulomas and malformations in or of the arteries or veins of the brain, haematomas and tumours on the pituitary gland.

Partial payment
Unequivocal diagnosis of a benign intracranial tumour by an appropriate specialist.

Excluded are cysts, granulomas and malformations in or of the arteries or veins of the brain, haematomas and tumours on the pituitary gland.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

Out-of-hospital cardiac arrest
Cardiac arrest not associated with any medical procedure and that is documented by an electrocardiogram and occurs out of hospital, and is due to:

> cardiac asystole; or
> ventricular fibrillation with or without ventricular tachycardia.

Pulmonary hypertension
Primary pulmonary hypertension with substantial right ventricular enlargement established by investigations including cardiac catheterisation.

Major neurological disease
The life assured has suffered or undergone one of the following conditions:

Alzheimer’s disease
The unequivocal diagnosis of Alzheimer’s disease, which must confirm permanent irreversible failure of brain function. The diagnosis is confirmed by an appropriate specialist in psychogeriatrics, psychiatry, neurology or geriatrics.

Coma
A definite diagnosis of a state of unconsciousness resulting in the following for at least 72 hours:

> a documented Glasgow Coma Score of 7 or less; and
> the use of a life-support system.

Coma arising from drug and alcohol abuse is specifically excluded.

Creutzfeldt-Jakob disease
The diagnosis of Creutzfeldt-Jakob disease confirmed by an appropriate specialist neurologist. The life assured must exhibit signs and symptoms of cerebellar dysfunction, severe progressive dementia, uncontrolled muscle spasm, tremor and athetosis, resulting in the life assured requiring permanent and continual medical supervision.
Dementia

Full payment
The unequivocal diagnosis of dementia. The diagnosis must confirm permanent irreversible failure of brain function and result in significant cognitive impairment for which no other cause has been identified. Significant cognitive impairment means a deterioration or loss of intellectual capacity that results in a requirement for continual supervision to protect the life assured or others. The diagnosis is confirmed by an appropriate specialist in psychogeriatrics, psychiatry, neurology or geriatrics.

Partial payment
The unequivocal diagnosis of dementia. The diagnosis must confirm permanent irreversible failure of brain function. The diagnosis is confirmed by an appropriate specialist in psychogeriatrics, psychiatry, neurology or geriatrics.

The benefit payable is:

- 25% of the sum assured to a maximum of $75,000 across all AIA policies if the unequivocal diagnosis occurs before the life assured is 60 years of age; or
- 25% of the sum assured to a maximum of $10,000 across all AIA policies if the unequivocal diagnosis occurs after the life assured is over 60 years of age.

Encephalitis

Full payment
The unequivocal diagnosis of severe inflammatory disease of the brain diagnosed by an appropriate specialist approved by AIA.

The life assured must have also sustained a neurological deficit causing at least 25% permanent impairment of whole person functioning or inability to perform one of the activities of daily living.

Partial payment
The unequivocal diagnosis of severe inflammatory disease of the brain diagnosed by an appropriate specialist approved by AIA.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

Idiopathic Parkinson’s disease

The unequivocal diagnosis of Idiopathic Parkinson’s disease as confirmed by an appropriate specialist.

Major head trauma

An accidental cerebral injury diagnosed by an appropriate specialist approved by AIA.

The life assured must have also sustained a neurological deficit causing at least 25% permanent impairment of whole person functioning or inability to perform one of the activities of daily living. Major head trauma arising from drug and alcohol abuse is specifically excluded.

Meningitis

The diagnosis of meningitis by an appropriate specialist approved by AIA.

The life assured must have also sustained a neurological deficit causing at least 25% permanent impairment of whole person functioning or inability to perform one of the activities of daily living.

Motor neuron disease

The unequivocal diagnosis of motor neuron disease diagnosed by an appropriate specialist approved by AIA.

Multiple sclerosis

The unequivocal diagnosis of multiple sclerosis as confirmed by an appropriate specialist.

Multiple sclerosis means a disease characterised by demyelination in the brain and/or spinal cord.

There must be more than one episode of well-defined neurological deficit with persisting neurological abnormalities.

Neurological investigations such as lumbar puncture, MRI (Magnetic Resonance Imaging) evidence of lesions in the central nervous system, evoked visual responses, and evoked auditory responses are required to confirm diagnosis.

Muscular dystrophy

The unequivocal diagnosis of muscular dystrophy diagnosed by an appropriate specialist approved by AIA.

Peripheral neuropathy

Irreversible inflammation or degradation of a peripheral nerve, diagnosed by an appropriate specialist approved by AIA.

The life assured must have also sustained a neurological deficit causing at least 25% permanent impairment of whole person functioning or inability to perform one of the activities of daily living.
Stroke
A cerebrovascular event producing neurological deficit. This requires clear evidence on CT, MRI (Magnetic Resonance Imaging) or similar appropriate scan or investigation that a stroke has occurred. This requires evidence of:

> infarction of brain tissue; or
> intracranial or subarachnoid haemorrhage.

Excluded from this definition are transient ischaemic attacks (TIA), cerebral symptoms due to migraine, cerebral injury from trauma or hypoxia and vascular disease affecting the eye, optic nerve or vestibular functions.

Paralysis and loss of functionality
The life assured has suffered or undergone one of the following conditions:

**Diplegia**
Total and permanent loss of function of both arms or both legs due to injury or disease of the spinal cord.

**Hemiplegia**
Total and permanent loss of function of one side of the body due to brain injury or disease.

**Loss of independent existence**
The life assured is totally and irreversibly disabled, with the effect that he or she is unable, as a result of sickness or injury, to perform without the physical assistance of someone else at least two of the following activities for himself or herself (if the life assured can perform the activity on his or her own by using special equipment AIA will treat the life assured as being able to perform that activity):

> Bathing and showering.
> Dressing and undressing.
> Eating and drinking.
> Using a toilet.
> Moving from place to place by walking, in a wheelchair, or with a walking aid.

Alternatively, the life assured is unable to perform one of the above and his or her intellectual capacity has reduced or deteriorated to such an extent that the life assured requires full-time care.

**Paraplegia**
Total and permanent loss of function of both legs due to injury or disease of the spinal cord.

Permanent blindness

**Full payment**
Irrecoverable loss of sight of both eyes as a result of sickness or injury. This is evidenced by:

> visual acuity on the Snellan Scale after correction by suitable lenses is less than 6/60 in both eyes;
> field of vision is reduced to 20 degrees or less of arc in the better eye; or
> a combination of visual defects resulting in the same degree of visual impairment as either of the points above.

**Partial payment**
Irrecoverable loss of sight in one eye as a result of sickness or injury. This is evidenced by:

> visual acuity on the Snellan Scale after correction by suitable lenses is less than 6/60 in that eye;
> field of vision is reduced to 20 degrees or less of arc; or
> a combination of visual defects resulting in the same degree of visual impairment as either of the points above.

The benefit payable is 25% of the sum assured to a maximum of $100,000 across all AIA policies. Only one claim can be made for this partial payment per life assured.

Permanent loss of hearing

**Full payment**
The life assured, as a result of sickness or injury suffers severe hearing impairment in both ears, whether aided or unaided, resulting in an average hearing threshold in both ears of 91db or greater as measured at 500, 1000 and 1500 Hz. The loss of hearing must be total and permanent.

**Partial payment**
The life assured, as a result of sickness or injury suffers severe hearing impairment in one ear, whether aided or unaided, resulting in an average hearing threshold in one ear of 91db or greater as measured at 500, 1000 and 1500 Hz. The loss of hearing must be total and permanent.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies. Only one claim can be made for this partial payment per life assured.
Permanent loss of speech

The life assured, as a result of sickness or injury suffers total and irreversible loss of speech. This loss must be established and the unequivocal diagnosis reaffirmed after a continuous period of three months of such loss by an appropriate specialist.

Permanent loss of use of limbs

Full payment

The life assured, as a result of sickness or injury, permanently loses the use of:

> both hands; or
> both feet; or
> one hand and one foot; or
> one hand and the sight of one eye (to the extent of 6/60 or less); or
> one foot and the sight of one eye (to the extent of 6/60 or less).

Partial payment

The life assured, as a result of sickness or injury, permanently loses the entire use of one limb.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies. Only one claim can be made for this partial payment per life assured.

Quadriplegia/Tetraplegia

Total and permanent loss of function of both upper and lower limbs due to injury or disease of the spinal cord.

Total Permanent Disablement (Optional condition)

A life assured has suffered Total Permanent Disablement if the life assured before attaining age 65:

a. in AIA’s opinion becomes totally incapacitated by illness or accident and, as a result of that incapacity:

> is completely unable to engage in the occupation, or carry on the business, he or she was involved in immediately before becoming incapacitated; and
> for the three consecutive months after that incapacity began, has not worked in that occupation or carried on that business; and
> is, in AIA’s opinion, after consideration of the medical and any other evidence satisfactory to AIA, so incapacitated that it is unlikely he or she will ever be able to resume work in that occupation or carry on in that business; or

b. suffers the total and permanent loss of use of:

> both feet (entire feet); or
> the sight in both eyes (to the extent that visual acuity is reduced to 6/36 or less in the better eye and/or the field of vision is reduced to 10 degrees or less of arc in the better eye); or
> any combination of two of: a hand, a foot or sight in an eye (to the extent that visual acuity is reduced to 6/36 or less and/or the field of vision is reduced to 10 degrees or less of arc); or

c. is constantly and permanently unable to perform at least two of the following activities without the physical assistance of someone else (if the life assured can perform the activity on his or her own by using special equipment AIA will treat the life assured as being able to perform that activity):

> Bathing and showering,
> Dressing and undressing,
> Eating and drinking,
> Using a toilet,
> Moving from place to place by walking, in a wheelchair, or with a walking aid.

Alternatively, the life assured has suffered Total Permanent Disablement if he or she is unable to perform one of the above activities and his or her intellectual capacity has reduced or deteriorated to such an extent that the life assured requires permanent and constant supervision.

If the life assured commences full-time domestic duties, the definition of the Optional Total Permanent Disablement condition will change by replacing paragraph A above with:

“a. in AIA’s opinion becomes totally incapacitated by illness or accident and, as a result of that incapacity:

> For three consecutive months after that incapacity began, has not worked in any occupation or engaged in any other gainful employment; and
> Following that three consecutive months is, in the opinion of AIA, after consideration of the medical and any other evidence satisfactory to AIA, so incapacitated that it is unlikely he or she will ever be able to work in any occupation or engage in any other gainful employment for which he or she may be reasonably suited by education, training or experience, which would pay remuneration at a rate greater than 25% of the life assured’s earnings during his or her last 12 consecutive months of work.”

AIA will at its discretion waive the three month waiting period when assessing Total Permanent Disablement if:

> in AIA’s opinion, the life assured has met all other requirements for payment under the Optional Total Permanent Disablement condition; and
AIA expects the life assured to survive beyond three months after the incapacity began.

In exercising this discretion, AIA will consider whether the medical condition of the life assured enables an assessment to be made immediately in respect of whether the life assured has met all other requirements of the Optional Total Permanent Disablement condition.

AIA will not waive the three month waiting period if, in our opinion, after considering suitable medical evidence, we believe that the life assured may die within three months after the incapacity began. A decision not to waive the three month waiting period will not affect our consideration of a claim under the Optional Total Permanent Disablement condition if the life assured survives for three months after the incapacity began.

Any condition that AIA has reasonable grounds to expect can be reversed or improved by surgery or other treatment will not be considered as having met this Optional Total Permanent Disablement condition.

AIA will not pay a benefit under the Optional Total Permanent Disablement condition if the life assured dies within three months of the date that the life assured became incapacitated.

Other key conditions

The life assured has suffered or undergone one of the following conditions:

Advanced diabetes

The life assured:

1. has been unequivocally first ever diagnosed as suffering from insulin dependent diabetes mellitus Type 1 after the age of 30 by an appropriate specialist; or
2. suffers severe diabetes mellitus, either insulin or non-insulin dependent, as certified by a consultant endocrinologist and resulting in at least one of the following:
   - Severe diabetic retinopathy resulting in visual acuity uncorrected and corrected of 6/36 or worse in both eyes;
   - Severe diabetic neuropathy causing motor and/or autonomic impairment;
   - Diabetic gangrene leading to surgical intervention; or
   - Severe diabetic nephropathy causing chronic irreversible stage 4 renal impairment.

Aplastic anaemia

The life assured has suffered the first occurrence of bone marrow failure which results in anaemia, neutropenia and thrombocytopenia, requiring treatment over a period of at least two months with at least one of the following:

- Blood product transfusion;
- Marrow stimulating agents;
- Immunosuppressive agents;
- Bone marrow transplantation.

Chronic liver failure

Full payment

The life assured suffers an unequivocal diagnosis of end-stage liver failure confirmed by an appropriate specialist and evidenced by one of the following conditions:

- permanent jaundice;
- ascites; or
- encephalopathy.

Partial payment

The unequivocal diagnosis of irreversible chronic liver failure by an appropriate specialist.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

Chronic lung disease

The life assured has irreversible chronic lung disease as confirmed by an appropriate specialist on the basis of respiratory function tests and which satisfies any one of the following criteria:

- Type 1 respiratory failure defined as O2 <60 mm hg; or
- Type 2 respiratory failure defined as CO2 >45 mm hg; or
- the provision of home oxygen therapy according to clinical practice guidelines for hypoxia O2 <55 mm hg (or 60 mm hg in the presence of pulmonary hypertension); or
- FEV1 <35% predicted; or
- DLCO (diffusing capacity or gas transfer) < 40% predicted; or
- is unable to perform at least one of the activities of daily living as a result of the respiratory failure.

Chronic renal failure

The kidneys of the life assured have reached the end-stage of renal disease resulting in chronic irreversible failure of the kidneys to function, as a result of which regular renal dialysis is instituted or transplantation performed.

Cognitive impairment

A permanent and irreversible loss of cognitive function that requires the life assured to be under continual care and supervision by an appropriate carer for at least 8 hours per day, as certified by an appropriate specialist.

HIV

Infection with the Human Immunodeficiency Virus (HIV) must have been acquired by accident or violence during the
course of the life assured’s normal occupation or through the medium of a blood transfusion, transfusion of blood products, organ transplant, assisted reproduction technique or other medical procedure or operation performed by a registered healthcare professional and/or in a registered hospital care institution, or surgical centre or surgical clinic. You must prove this to our satisfaction. Sero-conversion to the HIV infection must occur within six months of the accident. HIV infection transmitted by any other means, including but not limited to sexual activity or non-medical intravenous drug use, is not covered under this appendix.

Any incident giving rise to a potential claim must be reported to us within 30 days of the incident and be supported by a negative HIV Antibody Test taken within seven days after the incident. AIA may decline your claim if we are not given access to independently test all blood samples used, if we require, or if the life assured does not allow AIA to take further independent blood tests.

**Intensive care benefit**

**Full payment**

A state of unconsciousness with no reaction to stimuli or internal needs, persisting continuously for at least 96 hours, requiring assisted ventilation (including the use of endo-tracheal intubation and/or tracheostomy) in the intensive care unit of a hospital.

The life assured must have also sustained a neurological deficit causing at least 25% permanent impairment of whole person functioning or inability to perform one of the activities of daily living. Unconsciousness caused by drug and alcohol abuse is specifically excluded.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

**Partial payment**

A state of unconsciousness with no reaction to stimuli or internal needs, persisting continuously for at least seven days, requiring assisted ventilation (including the use of endo-tracheal intubation and/or tracheostomy) in the intensive care unit of a hospital.

Unconsciousness caused by drug and alcohol abuse is specifically excluded.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

**Major transplant surgery**

The life assured has undergone, or been placed on the major organ transplant waiting list in New Zealand or Australia for, a transplant from a human donor of one or more of the following organs or substances:

> Kidney;
> Heart;
> Lung;
> Liver;
> Pancreas;

> Bone marrow; or
> Intestine.

The transplant of all other organs or parts of any organ or of any other tissue or stem cell transplant is excluded.

The transplant must be considered medically necessary and the condition affecting the organ deemed untreatable by any means other than organ transplant, as confirmed by an appropriate specialist.

**Pneumonectomy**

The life assured has undergone surgery to remove an entire lung. The treatment must be considered medically necessary by an appropriate specialist.

**Severe burns**

**Full payment**

The life assured has suffered severe tissue injury caused by thermal, electrical or chemical agents. As a result, the life assured has full thickness or third-degree burns to:

> at least 20% of the body surface area (as measured by age-appropriate use of The Rule of 9 or the Lund and Browder Body Surface Chart); or
> 50% of both hands, requiring surgical debridement and/or grafting; or
> 25% of the face, requiring surgical debridement and/or grafting.

**Partial payment**

The life assured has suffered severe tissue injury caused by thermal, electrical or chemical agents. As a result, the life assured has full thickness or third-degree burns to:

> both hands, requiring surgical debridement and grafting; or
> the face, requiring surgical debridement and grafting.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

**Severe Crohn’s disease**

A life assured has been unequivocally diagnosed with Crohn’s disease that requires permanent immunosuppressive medication or as a result of the diagnosis has undergone a surgical procedure to remove the entire large bowel.

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies.

**Severe illness or injury**

If the life assured suffers a medical condition that does not satisfy any condition leading to either a full or partial claim under this policy and it is deemed medically necessary to:

> undergo major invasive surgery; or
> be treated using major interventional treatment;
The diagnosis must be supported by a positive rheumatoid arthritis. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from severe rheumatoid arthritis. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from severe osteoporosis. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from severe ulcerative colitis. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from systemic lupus erythematosus. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from systemic lupus erythematosus. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from systemic lupus erythematosus. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from systemic lupus erythematosus. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from systemic lupus erythematosus. The diagnosis must confirm that the life assured has been unequivocally diagnosed by an appropriate specialist as suffering from systemic lupus erythematosus. 

Degenerative osteoarthritis and all other arthritides are excluded. 

The benefit payable is: 

> 25% of the sum assured up to a maximum of $75,000 across all AIA policies if the unequivocal diagnosis occurs before the life assured is 50 years of age; or 

> 25% of the sum assured up to a maximum of $10,000 across all AIA policies if the unequivocal diagnosis occurs after the life assured is over 50 years of age. 

Severe ulcerative colitis 

A life assured has been unequivocally diagnosed by an appropriate specialist with ulcerative colitis that requires permanent immunosuppressive medication or as a result of the diagnosis has undergone a surgical procedure to remove the entire large bowel. 

The benefit payable is 25% of the sum assured to a maximum of $75,000 across all AIA policies. 

Systemic Lupus Erythematosus 

The life assured has been unequivocally diagnosed by an appropriate specialist with systemic lupus erythematosus in the clinical setting, evidenced by the presence of any four or more of the following eleven criteria: 

> Malar rash: Fixed erythema, flat or raised, over the malar eminences, tending to spare the nasolabial folds. 

> Discoid rash: Erythematous, raised patches with adherent kerotic scaling and follicular plugging, atrophic scarring may occur in older lesions. 

> Photosensitivity: Skin rash as a result of unusual reaction to sunlight, evidenced by patient history or specialist’s report. 

> Oral ulcers: Oral or nasopharyngeal ulceration reported by physician. 

> Arthritis: Non-erosive arthritis involving two or more peripheral joints, characterised by tenderness, swelling, or effusion. 

> Serositis: Pleuritis - convincing history of pleuritic pain or pleuritic rub heard by a physician or evidence of pleural effusion; or pericarditis - documented by ECG or rub or evidence of pericardial effusion. 

> Renal disorder: Persistent proteinuria greater than 0.5 grams per day; or greater than 2+ if quantitation not performed; or tubular casts - may be red cell, haemoglobin, granular, cellular or mixed.
Neurological disorder:
Seizures - in the absence of offending drugs or known metabolic derangements, e.g. uraemia, ketoacidosis; or electrolyte imbalance.

Hematologic disorder:
Hemolytic anaemia - with reticulocytosis; or leucopenia - less than 3,500/mm³ on 2 or more occasions; or thrombocytopenia - less than 100,000/mm³ in the absence of offending drugs.

Immunologic disorder:
Positive LE cell preparation; or anti-DNA: antibody to native DNA in abnormal titre; or anti-Sm: presence of antibody to Sm (Smooth Muscle) nuclear antigen; or false positive serologic test for syphilis known to be positive for at least 6 months and confirmed by Treponema pallidum immobilisation or fluorescent treponemal antibody absorption test.

Antinuclear antibody:
An abnormal titre of antinuclear antibody by immunofluorescence or an equivalent assay at any point in time and in the absence of drugs known to be associated with ‘drug-induced lupus’ syndrome.

In addition to the diagnosis of systemic lupus erythematosus, lupus nephritis must be confirmed by renal changes as measured by a renal biopsy that it is grade 3 to 5 of the WHO (World Health Organisation) classification of lupus nephritis and be associated with persisting proteinuria (more than 2+).

Terminal illness

AIA believes at its discretion after considering medical evidence by the life assured’s own appropriate specialist and any other medical evidence we may reasonably require, will result in the death of the life assured within the following 12 months from the date of the Terminal Illness medical certification, irrespective of any treatment the life assured may receive.

The claim payment will be paid if the life assured is alive 14 days following the medical certification.

The Terminal Illness benefit will be treated as an early payment of the Critical Conditions Benefit and then be reduced by any amount paid by the Terminal Illness benefit.

This Benefit is only available if the words standalone Critical Conditions Benefit appears in the schedule.

Death of the life assured as a result of accident is not covered under the Terminal Illness Benefit.

Systemic Sclerosis

The life assured has been unequivocally diagnosed by an appropriate specialist with systemic sclerosis, causing the life assured to be totally and irreversibly unable to perform any one of the activities of daily living without assistance of another adult person.

23. Definitions of conditions for the Built-in Newborn Children’s Benefit

Cleft palate

A fissure of the palate at birth associated with possible separation of the lip extending into the nose. Clefts can occur on one or both sides of the upper lip.

The benefit will only be paid for those cases with cleft palate, or cleft lip and palate. No benefit is payable for hare lip alone.

Down’s syndrome

A genetic disorder caused by trisomy of chromosome twenty one. Diagnosis must be confirmed through a confirmatory blood test evidencing the disorder.

Spina bifida

Congenital defective closure of the bone encasement of the Spinal cord through which the cord and meninges may or may not protrude.

Only Spina Bifida associated with a meningeal cyst (meningocele) or a cyst containing both meninges and spinal cord (meningomyelocele) or only spinal cord (myelocele) shall be covered.

Total blindness

Visual impairment in both eyes (whether aided or unaided and whether reversible or irreversible) evidenced by:

- visual acuity of 6/36 or less in both eyes;
- field of vision reduced to 10 degrees or less of arc in the better eye;
- a combination of visual defects resulting in the same degree of visual impairment as either of the points above; or
- other evidence from a registered medical practitioner or specialist acceptable to AIA that confirms that the above requirements are likely to be satisfied.

Death of the life assured as a result of accident is not covered under the Terminal Illness Benefit.
24. **Definitions of conditions for the Optional Children’s and Maternity Benefit**

**Pregnancy Complications Benefit conditions**

**Disseminated intravascular coagulation (DIC)**

Over activation of the coagulation and fibrinolytic system resulting in microvascular thrombosis and consumption of platelets and coagulation factors.

DIC complicating pregnancy may follow any major haemorrhage, pre-eclampsia, amniotic fluid embolism, endotoxic shock, and when foetal death occurs after 20 weeks.

**Eclampsia**

The occurrence of grand mal seizures in the presence of hypertension, proteinuria and oedema complicating a pregnancy, and not being due to other causes such as epilepsy.

**Hydatidiform mole**

Development of multiple fluid filled cysts in the uterus after the degeneration of the placenta which results in the death of the embryo as confirmed by a registered medical practitioner.

25. **Schedule of related conditions**

The table below sets out some of the conditions that AIA deems to be related conditions to earlier conditions suffered by the life assured. This is used for the purposes of determining whether a claim in respect of a reinstated Critical Conditions Benefit is excluded.

This list of related conditions is not exhaustive.

<table>
<thead>
<tr>
<th>CONDITION FOR WHICH A CLAIM WAS PAID</th>
<th>RELATED CONDITION OF A SUBSEQUENT CLAIM</th>
</tr>
</thead>
<tbody>
<tr>
<td>Any of the conditions in the category of cancer</td>
<td>Any second primary cancer arising in the same organ, or pair of organs, or tissue as a prior cancer</td>
</tr>
<tr>
<td>Any Dementia and Alzheimer’s Disease</td>
<td>Loss of independent existence</td>
</tr>
<tr>
<td>Any multiple sclerosis</td>
<td>Dementia and Alzheimer’s Disease, Loss of independent existence</td>
</tr>
<tr>
<td>Any muscular dystrophy</td>
<td>Cardiomyopathy</td>
</tr>
<tr>
<td>Any Parkinson’s disease</td>
<td>Dementia and Alzheimer’s Disease, Loss of independent existence</td>
</tr>
<tr>
<td>Any stroke</td>
<td>Parkinson’s disease, Dementia and Alzheimer’s Disease, Loss of independent existence, Heart attack</td>
</tr>
<tr>
<td>Any heart attack</td>
<td>Any stroke</td>
</tr>
<tr>
<td>Major head trauma</td>
<td>Coma</td>
</tr>
<tr>
<td>Advanced diabetes</td>
<td>Major organ transplant, Chronic kidney failure, Acute renal dialysis, Loss of sight in one eye, Permanent blindness, Loss of sight in one eye and loss of a limb or limbs, Stroke, Heart attack, Coronary artery bypass graft</td>
</tr>
</tbody>
</table>
26. **Key terms**

**accidental death**

Death which is the result of external or internal bodily injury caused directly by violent external visible means, not attributable to any other event.

**activities of daily living**

The total and irreversible disablement of the life assured with the effect that he or she is unable to perform without the physical assistance of someone else, at least one of the following activities for himself or herself (if the life assured can perform the activity on his or her own by using special equipment AIA will treat the life assured as being able to perform that activity):

> Bathing and showering;
> Dressing and undressing;
> Eating and drinking;
> Using a toilet;
> Moving from place to place by walking, in a wheelchair, or with a walking aid.

**appropriate carer**

A medically qualified carer, or caring full time for a person who would need hospital, rest home or residential care.

**basic activity of daily living**

Washing - The ability to wash oneself without physical assistance or supervision. This includes transferring in and out of the bath or shower.

Dressing - The ability to independently put on or take off all garments, including the securing and unfastening thereof. Where appropriate, this includes any braces, prosthesis or other surgical appliance.

Feeding / eating - The ability to eat independently once food has been prepared and made available.

Continence - The ability to manage bowel and bladder functions such that an adequate level of personal hygiene can be maintained.

**condition(s)**

A treatment, illness, surgical procedure or event, as specified in this appendix, which meets the specified definition.

**congenital condition**

A health anomaly or defect which is present at birth, whether it is recognised or not, and whether it is inherited or due to external environmental factors such as drugs, alcohol, or complications during pregnancy or delivery.

**date of conversion**

The later of the effective date or the actual date from which we receive the increased premium for the Life Cover Benefit and Accelerated Critical Conditions Benefit cover.

**full-time care**

Care for 16 hours per day or more, provided by a nursing service approved by AIA whose profession it is to provide nursing services.

**gainful employment**

Working to generate income through personal efforts by using the life assured's time and skills. He or she can be self-employed, employed, earning fees, under contract, receiving commissions, working on contract or otherwise remunerated for his or her efforts.

**high dependency unit**

A specially staffed and equipped section of an intensive care complex that provides a level of care intermediate between intensive care and general ward care. Patients may be admitted to the high dependency unit:

> from the intensive care unit as a step-down prior to transfer to the ward, or
> directly from the ward, recovery or emergency areas.

**Mobility** - The ability to move independently between indoor rooms on a level surface with the assistance of a walking aid, including a wheelchair.

**Transferring** - The ability to independently transfer from the bed to a chair with the assistance of a walking aid.
An arm, leg, hand or foot. In respect of this definition:

- the arm starts from the shoulder joint and ends at the wrist joint;
- the hand starts from the wrist joint;
- the leg starts from the hip joint and ends at the ankle joint; and
- the foot starts from the ankle joint.

Non-surgical procedures or treatments initiated to treat the claimed medical condition including but not limited to: stereotactic radiosurgery, laser therapy, ultrasonic aspiration, chemotherapy, or radiotherapy. Pharmaceutical therapies administered outside of a clinical setting are excluded.

An invasive procedure occurring in a hospital operating theatre involving the incision, excision, manipulation, or suturing of tissue, under general anaesthesia, spinal anaesthesia, or epidural. Elective cosmetic procedures are excluded.

A service or supply provided by a registered medical practitioner or specialist that AIA deems on reasonable grounds is necessary for the treatment of the disease, illness, or injury involved.

Under no circumstances shall the following services or supplies be considered medically necessary:

- Those services or supplies that do not require the skills or services of a registered medical practitioner or specialist; and
- hose services or supplies provided mainly for the comfort or convenience of the life assured.

Any disease or medical condition for which, prior to becoming covered under this policy, the individual consulted a registered medical practitioner, received treatment or services from a registered medical practitioner, or took prescribed drugs and medicines.

Any condition that AIA, in its sole discretion, deems to be directly or indirectly related to a previous claim's condition. This includes:

(a) any increase in severity level of the same condition, and
(b) any condition that is a recognised outcome and/or complication of a previous claim or a recognised complication of any treatment administered in relation to a previous claim.

Any two conditions that are both related conditions of a third condition will be treated as related conditions to each other for calculating the amount payable.

The Schedule of Related Conditions detailed in Section 25 outlines some of the conditions that are deemed to be related conditions of other conditions. The list is not exhaustive.

As defined in the ‘Guides to the Evaluation of Permanent Impairment – 4th Edition’ (or subsequent editions), produced by the American Medical Association and measured six months beyond initial diagnosis.

Personal effort using the life assured’s time and skills, whether or not income is generated for the life assured.

Worked and working have similar meaning.
